### **Monday 18th December**

It works well when the teachers are present in the room

Some students were very articulate and really opened up

Teachers need to be in the room at all times to maintain high standard of behaviour from the students

Require staff to stay in the room

Good articulate interactions from students

Need teachers in the room at all times

Loved the school dinners

Really enjoyed teaching in the school. Equipment resources were provided immediately when requested. Teachers were friendly and helpful

Very well organised

Students engaged well overall. Staff support excellent going beyond to assist in making the sessions work well.

We were well looked after with coffee and food

Brilliant, hopefully the kids can learn from my mistakes so they don't make them, themselves

## **Any additional comments or feedback**

### **Tuesday 19th December**

Teachers needed in the room to help control the room as we are workshop facilitators and not trained to keep order of young adults

Last day before Christmas was ambitious in terms of expecting concentration from the students.

Need to explain more about what they were coming to.

Brilliant today, better than I thought

When teachers were present in the room the overall behaviour was better

Quite a difficult last session as pupils rowdy and disruptive.

Student behaviour excellent considering last day of school

Also good organisation, hospitality etc. Thanks for inviting us to be involved

Great experience and opportunity to pass a message we feel important

Well done to all those who organised the days

Staff presence makes a big difference to behaviour and we appreciated it

Teachers could have used more measures to control rowdy behaviour of some students

.Overall positive experience. We were well looked after.

The majority of students were respectful and seemed to gain from our session

Thank you for having us. Big thank you from the team
